

# Pharmaceutical Analysis

## Targets

TCFD Disclosure  
CDP Climate Change Rating A

TCFD Disclosure  
CDP Climate Change Rating A

TCFD Disclosure  
CDP Climate Change Rating B

## Social

2025: Train 170k workers (cumulatively) to strengthen health systems via Healthy Heart Africa and Healthy Lung programmes

2025: Reach 50 million people (cumulatively) via Healthy Heart Africa, Young Health Programme (YHP), and Healthy Lung programmes

Access to healthcare  
Eradicating polio  
Child cancer treatment

Access to healthcare in LMIC's of four global health programmes: Sickle cell, chagas, malaria, leprosy

## Biodiversity

N/A

2030: all sites will protect, restore and foster biodiversity

Work underway to set targets

## Operational Waste

2025: Reduce waste by 10% below the 2015: baseline

2025: 100% sites landfill free, 90% waste reused, recycled or recovered

2025: waste disposal reduced by half

## Water

2025: Maintain absolute water use at 2015: baseline levels

2030: All site water stewardship

2030: water neutral in all areas of operation

## Sourcing

N/A

Member of Together for Sustainability with chemical companies to improve sustainable sourcing practices of suppliers

N/A

## Plastics & Packaging

2022: achieve 95% sustainable paper in secondary and tertiary packaging by the end of 2022

2025: planting 50 million trees

2025: all top selling medicines assessed

2027: blister-free vaccines

2025: eliminate PVC

2030: plastic neutral

## Carbon Scope 3

2030: 50% absolute reduction of Scope 3 GHG emissions from 2019 base year

2050: net zero

2030: scope 3 neutral

2040: net zero

## Carbon Scope 1&2

2026: 98% absolute reduction of Scope 1 and 2 GHG emissions (vs 2015)

2030 carbon neutral

2030 renewable energy on all sites

2030 carbon neutral car fleet

2025 carbon neutral 1 & 2 in own operations

2030 carbon neutral across value chain
